BORN FOR THE CHALLENGES OF THE FUTURE

Nata nel 1993 come piccola bottega artigiana, il fondatore Oltolini Angelo ha da sempre incentrato il suo focus nell'ideazione di prodotti dal design accattivante unito ad un elevato rapporto qualità prezzo.

Nel 2007 con l'entrata in azienda del figlio Sergio, la Top Light Illuminazione si è evoluta affiancando una componente commerciale alla precedente vocazione artigianale.

Questo ha permesso un importante ampliamento della gamma prodotti ed un'estensione della propria rete commerciale sia sul territorio nazionale che internazionale.

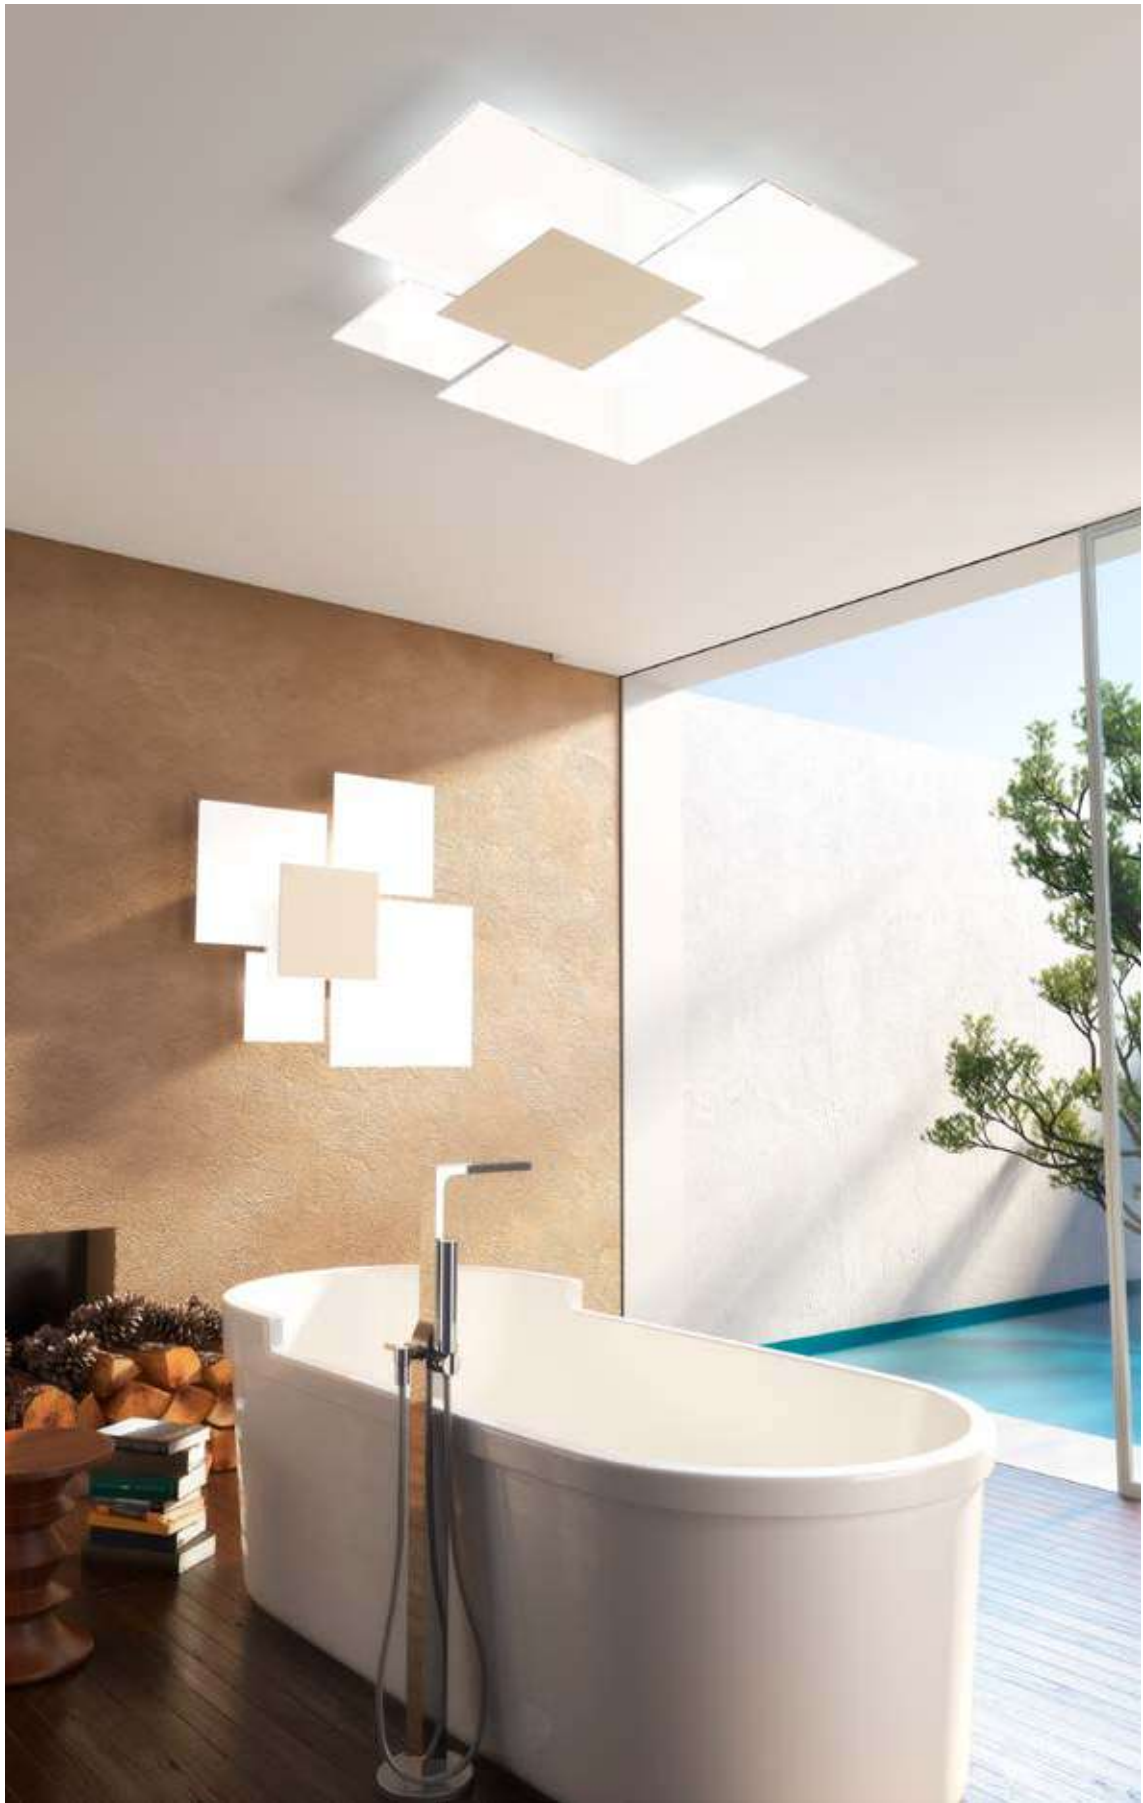

Continua innovazione, vasta disponibilità di magazzino e velocità nelle consegne sono solo alcuni degli elementi distintivi che fanno di Top Light Illuminazione un brand sempre più riconosciuto.

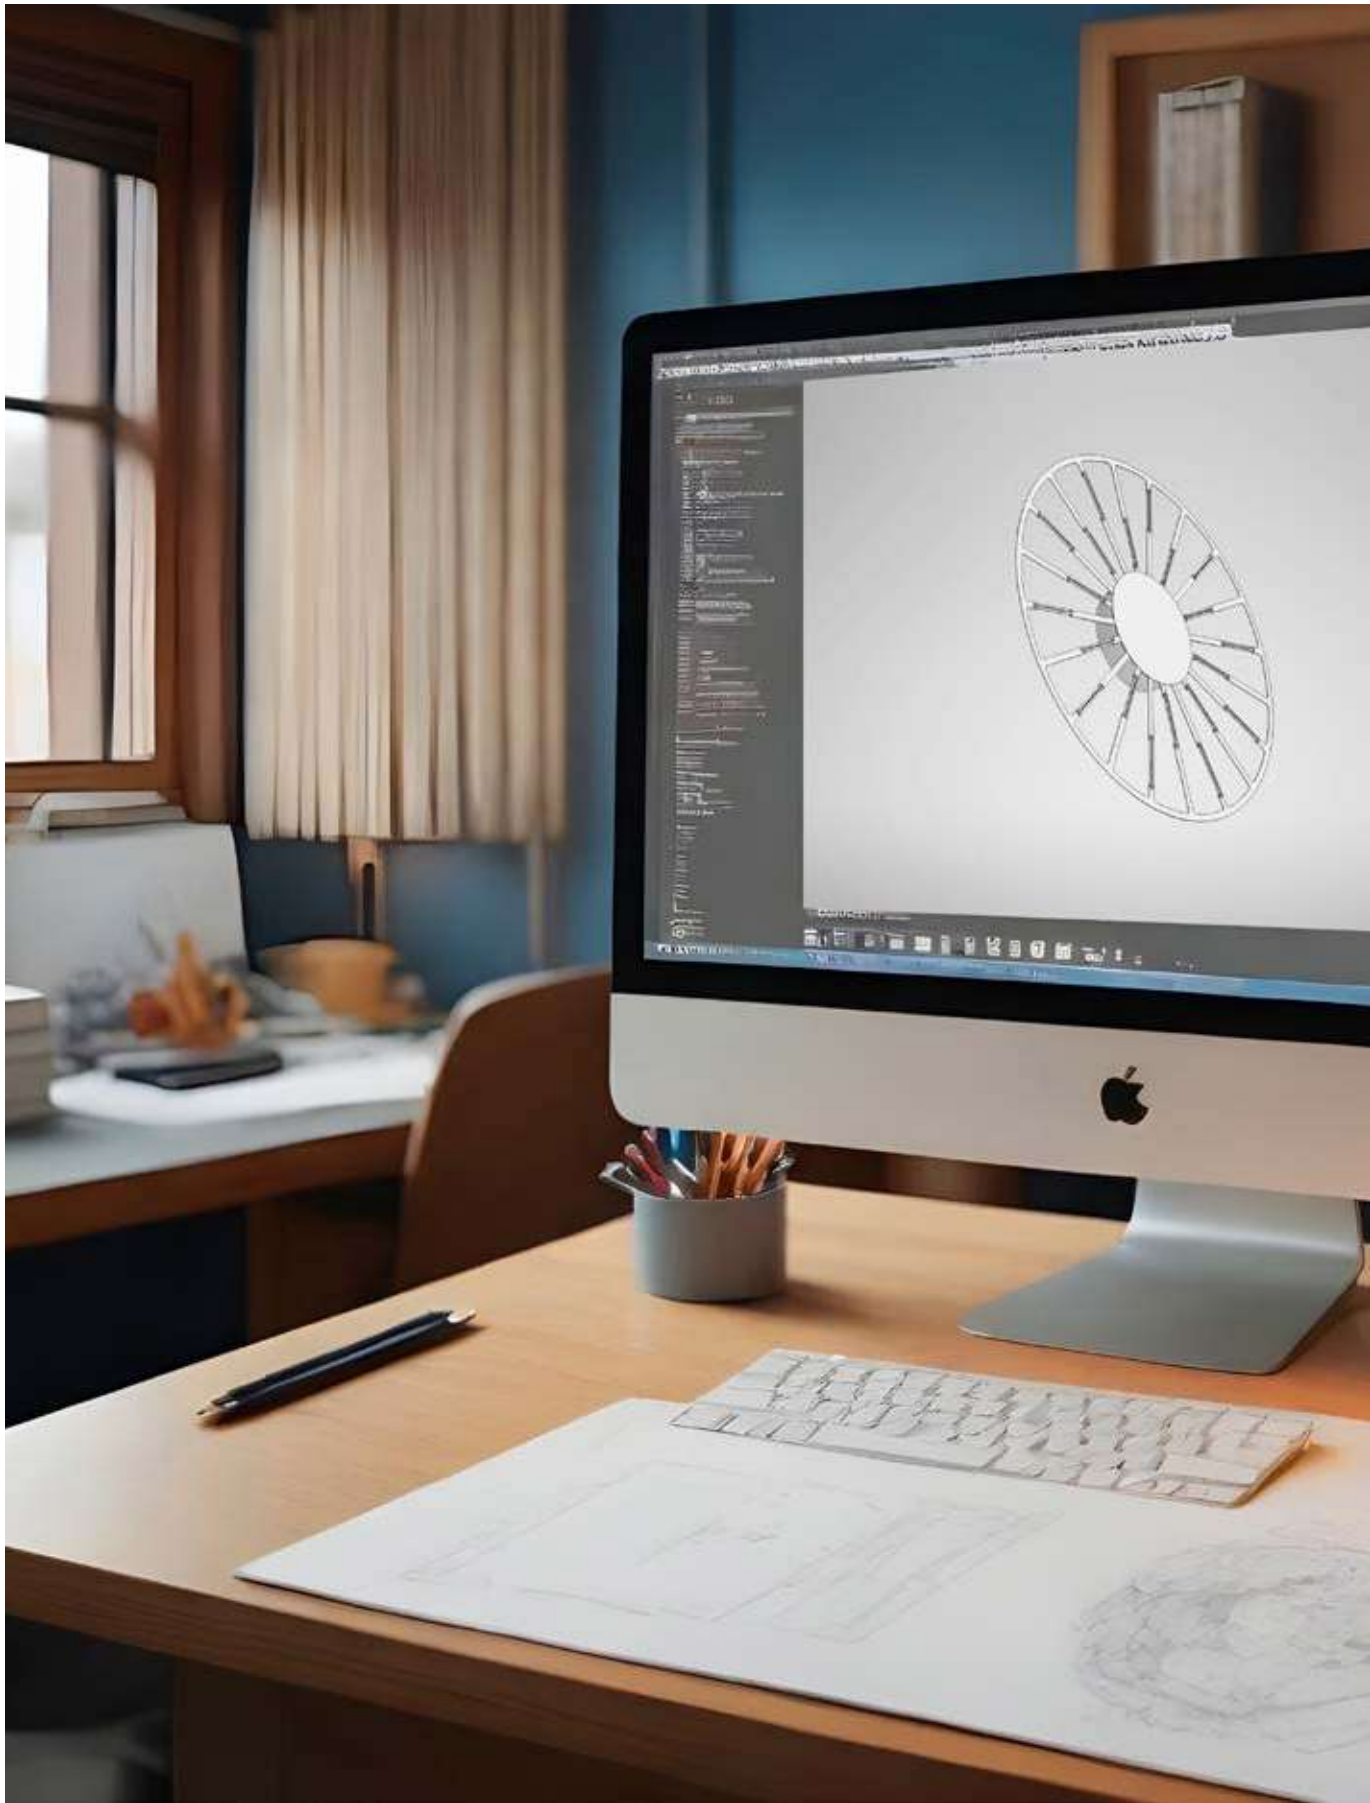

Founded in 1993 as a small artisan workshop, founder Angelo Oltolini has always focused on creating products with captivating designs combined with a high quality-price ratio.

In 2007, with the entry of his son Sergio into the company, Top Light Illuminazione evolved by adding a commercial component to its previous artisanal vocation.

This allowed for a significant expansion of the product range and an extension of its sales network both nationally and internationally.

Continuous innovation, extensive stock availability, and fast delivery times are just a few of the distinctive elements that make Top Light Illuminazione an increasingly recognized brand.

PASSIONE, DESIGN E CREATIVITÀ

PASSION, DESIGN, AND CREATIVITY

Crediamo fermamente che l'illuminazione sia cruciale non solo per l'arredamento ma anche per creare l'atmosfera desiderata in ogni spazio. Per questo motivo, progettiamo e realizziamo lampade uniche, impiegando materiali di alta qualità e tecnologie all'avanguardia.

La nostra ampia gamma di soluzioni di illuminazione è progettata per soddisfare ogni esigenza di stile, includendo lampade a sospensione, plafoniere, applique, lampade da terra e da tavolo.

We firmly believe that lighting is crucial not only for furnishing but also for creating the desired atmosphere in every space. For this reason, we design and manufacture unique lamps using high-quality materials and cutting-edge technologies.

Our wide range of lighting solutions is designed to meet every style requirement, including pendant lights, ceiling lights, wall lights, floor lamps, and table lamps.

ORGANIZZAZIONE

ORGANIZATION

Grazie alla vasta disponibilità di magazzino (oltre 5.000 referenze e 300.000 pezzi mediamente disponibili) è in grado di effettuare spedizioni in tempi molto brevi (24/48 h).

Thanks to its large inventory (over 5,000 references and an average of 300,000 items available), it can ship orders in a very short time (24/48 hours).

SERVIZIO

SERVICE

I clienti codificati hanno la possibilità, mediante il sistema B2B disponibile sul sito web aziendale, di verificare la disponibilità dei prodotti a magazzino, di effettuare ordini e di ottenere molte altre informazioni.

Encoded customers have the ability, through the B2B system available on the company's website, to check product availability in stock, place orders, and obtain many other pieces of information.

Collezione di lampade a sospensione composta da una o più sfere in vetro pirex soffiato regolabili in altezza e disponibili in diverse finiture.

La serie viene completata da una lampada da appoggio, una da plafone e da una lampada da parete.

La finitura dei vetri si presenta omogenea nelle versioni trasparente e bianco fog oppure sfumata verso il basso nelle versioni ambra, bronzo, rame, oro e fumé. I rosoni in metallo sono disponibili nelle finiture cromo, bianco e ottone satinato, mentre la montatura della sospensione è unicamente in silicone di colore bianco.

Collection of suspension lamps made up of one or more height-adjustable blown Pyrex glass spheres and available in different finishes.

The series is completed by a table lamp, a ceiling lamp and a wall lamp.

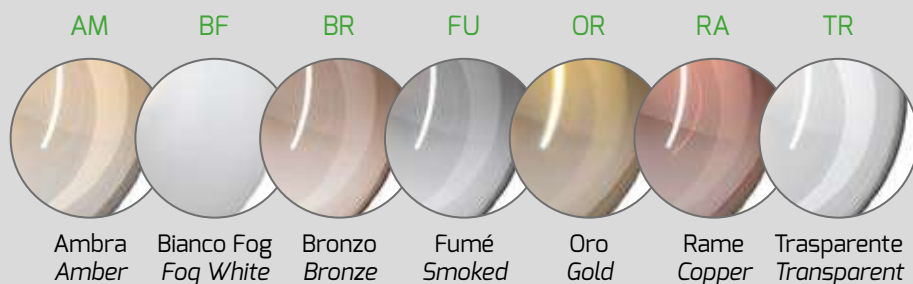

The glass finish is homogeneous in the transparent and white fog versions or shaded downwards in the amber, bronze, copper, gold and smoked versions.

The metal rosettes are available in chrome, white and satin brass finishes, while the suspension frame is only in white silicone.

Collezione di lampade a sospensione composta da uno o più diffusori in vetro pirex soffiato regolabili in altezza.
 Con una forma elegante e preziosa, il vetro trasparente con decorazione satinata e sfumata ben si adatta a tutti gli ambienti.
 I rosoni a soffitto sono di colore bianco, mentre il decoro dove è fissato il vetro è disponibile a scelta nelle finiture bianco e oro opaco.
 Le sorgenti luminose a led integrato sono dimmerabili con regolatore Triac (non incluso) e studiate per valorizzare il vetro e diffondere ottimamente la luce.
 La serie viene completata da una lampada da parete, due lampade da plafone e due lampade da appoggio.

Collection of pendant lamps composed of one or more blown Pyrex glass diffusers adjustable in height.
 With an elegant and precious shape, the transparent glass with satin and shaded decoration is well suited to all environments.
 The ceiling roses are white, while the decoration where the glass is fixed is available in a choice of white and matt gold finishes.
 The integrated LED light sources are dimmable with Triac regulator (not included) and designed to enhance the glass and spread the light optimally.
 The series is completed by a wall lamp, two ceiling lamps and two free-standing lamps.

Collezione di lampade a sospensione composta da uno o più diffusori in vetro pirex soffiato regolabili in altezza.

Ogni elemento è disponibile in 3 forme differenti (Alpha, Beta e Gamma) ed è caratterizzato da un doppio vetro, bianco all'interno e in diverse colorazioni all'esterno.

La serie viene completata da una lampada da appoggio, una da plafone e da una lampada da parete.

Le finiture dei vetri sono trasparente, verde, fumè, blu e ambra.

Le strutture dei rosoni sono disponibili nelle finiture cromo, bianco e ottone satinato, mentre le finiture del portalampada sono unicamente di colore bianco.

Collection of suspension lamps made up of one or more height-adjustable blown Pyrex glass diffusers.

Each element is available in 3 different shapes (Alpha, Beta and Gamma) and is characterized by double glass, white on the inside and in different colors on the outside.

The series is completed by a table lamp, a ceiling lamp and a wall lamp.

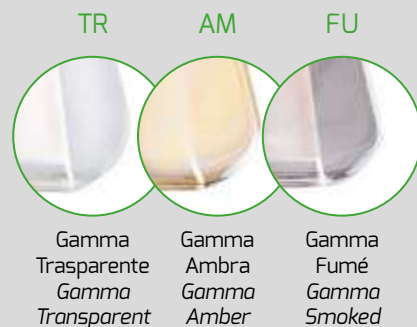

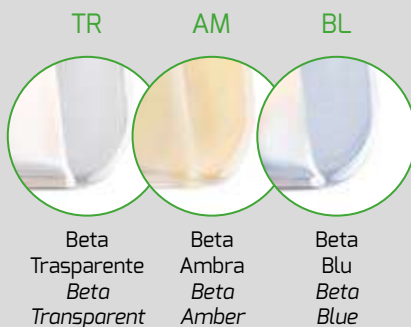

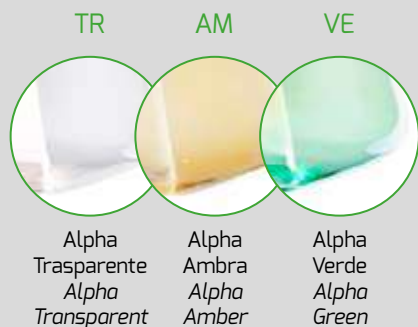

The glass finishes are transparent, green, smoked, blue and amber.

The structures of the rosettes are available in chrome, white and satin brass finishes, while the finishes of the lamp holder are only white.

Collezione di lampade a sospensione composte da una o più ampolle in vetro pirex soffiato di varie dimensioni.
Lampade a parete disponibili nelle versioni con vetri piccoli.
Le finiture dei vetri cromo, rame, oro e ambra sono trattamenti superficiali che riducono solo parzialmente l'emissione luminosa.
Le strutture dei rosini sono disponibili nelle finiture cromo, bianco e ottone satinato, e le montature delle sospensioni contenute nei vetri sono dotate di copri-portalampane intercambiabili nelle stesse tre finiture.

Collection of suspension lamps made up of one or more blown Pyrex glass ampoules of various sizes.
Wall lamps available in versions with small glasses.
The chrome, copper, gold and amber glass finishes are surface treatments that only partially reduce the light emission.
The rosette structures are available in chrome, white and satin brass finishes, and the suspension frames contained in the glass are equipped with interchangeable lampholder covers in the same three finishes.

Collezione di lampade a sospensione composte da uno o più elementi in vetro soffiato regolabili in altezza.
Gli elementi in vetro, disponibili in due dimensioni, sono caratterizzati da una lavorazione a rombi presente all'interno del vetro che ne arricchisce e valorizza il design.
La serie viene completata da due modelli di lampade da parete, una da plafone e da una lampada da appoggio.
Le finiture dei vetri sono ambra, rubino e zaffiro.
Le strutture dei rosoni sono disponibili nelle finiture cromo, bianco e ottone satinato, mentre le finiture del portalampada sono unicamente di colore bianco.

*Collection of suspension lamps made up of one or more height-adjustable blown glass elements.
The glass elements, available in two sizes, are characterized by a diamond pattern inside the glass which enriches and enhances the design.
The series is completed by two models of wall lamps, a ceiling lamp and a table lamp.
The glass finishes are amber, ruby and sapphire.
The structures of the rosettes are available in chrome, white and satin brass finishes, while the finishes of the lamp holder are only white.*

1195/PL25

1195/S25

1195/52-35

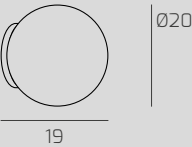

Collezione di lampade composte da vetri soffiati di forma sferica in finitura acidato opaco.
Le parti metalliche sono cromate e le sospensioni sono regolabili in altezza con dispositivi fermacavo automatici.
Le strutture per le lampade da appoggio, da parete e da plafone sono state progettate con un sistema che permette una rapida sostituzione delle sorgenti luminose.

Collection of lamps made up of spherical blown glass with a matt etched finish.
The metal parts are chromed and the suspensions are adjustable in height with automatic cable clamp devices.
The structures for the table, wall and ceiling lamps have been designed with a system that allows for quick replacement of the light sources.

Boomerang

1200

1200/6

1200/2

1200/P

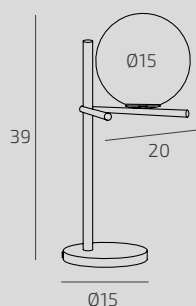

Collezione di lampade composte da strutture in metallo verniciato sabbia e diffusori in vetro bianco soffiato e acidato opaco di diverse misure.
 I lampadari a 4, 6 e 8 luci possono essere regolati in altezza mediante l'utilizzo dei tre distanziatori forniti in dotazione e la posizione di fissaggio può essere scelta per orientare le luci verso il plafone o verso il pavimento.
 I vetri sono dotati di ghiera metalliche filettate ed a scomparsa che ne facilitano il fissaggio.
 La serie viene completata da una sospensione lineare a 6 luci, da una lampada a due luci utilizzabile sia a parete che a plafone e da una lampada da appoggio.

*Collection of lamps composed of sand painted metal structures and diffusers in blown and matt etched white glass of different sizes.
 The 4, 6 and 8 light chandeliers can be adjusted in height using the three spacers supplied and the fixing position can be chosen to direct the lights towards the ceiling or towards the floor.
 The glasses are equipped with threaded and hidden metal rings which facilitate fixing.
 The series is completed by a 6-light linear suspension, by a two-light lamp that can be used both on the wall and on the ceiling and by a free-standing lamp.*

Tornado

1163

Collezione di lampade a sospensione, parete, plafone e tavolo realizzata con profili curvi in alluminio che creano un movimento circolare ampio ed allo stesso tempo essenziale.

Le sospensioni danno la possibilità di sostituire le singole sorgenti luminose senza necessità di sostituire l'intero prodotto e sono disponibili con led a luce calda (3000°K) o naturale (4000°K).

Tutti gli altri prodotti che completano la collezione sono dotati di switch che consente di selezionare la temperatura colore della luce tra 3000°K e 4000°K in fase di installazione.

Le sospensioni sono regolabili in altezza e disponibili in quattro colorazioni mentre tutti gli altri prodotti in 3 colorazioni

Collection of pendant, wall, ceiling and table lamps made with curved aluminum profiles that create a large and at the same time essential circular movement.

The suspensions give the possibility of replacing individual light sources without the need to replace the entire product and are available with warm (3000°K) or natural (4000°K) LEDs.

All the other products that complete the collection are equipped with a switch that allows you to select the color temperature of the light between 3000°K and 4000°K during installation.

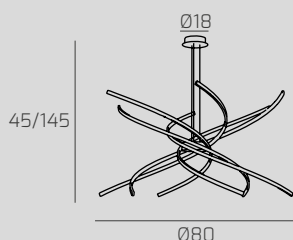

The suspensions are adjustable in height and available in four colors while all the other products in 3 colors

Four Squares

1162

1162/AP-NE

1162/P-NE

Collezione di lampade a parete e plafone realizzata con profili di alluminio che uniti fra loro creano quattro quadrati di diverse dimensioni producendo un'estetica allo stesso tempo sofisticata ma minimale. I punti di forza del prodotto sono l'importante resa luminosa, la sostituibilità del singolo modulo quadrato in caso di malfunzionamento e la possibilità di scelta della colorazione della luce fra 3000K e 4000K che può essere scelta in fase di installazione (mediante degli switch ed eventualmente anche cambiato in seguito) essendo il dispositivo dotato contemporaneamente di led di entrambi le colorazioni.

La serie viene completata da due modelli di applique e da una lampada da appoggio aventi le medesime caratteristiche tecniche e switch per cambio di colore.

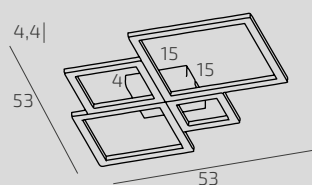

Collection of wall and ceiling lamps made with aluminum profiles which when joined together create four squares of different sizes, producing a sophisticated yet minimal aesthetic. The strengths of the product are the important light output, the replaceability of the single square module in case of malfunction and the possibility of choosing the color of the light between 3000K and 4000K which can be chosen during installation (by means of switches and possibly also changed later) as the device is simultaneously equipped with LEDs of both colours. The series is completed by two wall lamp models and a table lamp with the same technical characteristics and color change switches.

Collezione di lampade da parete o da plafone con struttura metallica verniciata bianca e piastra frontale calamitata disponibile in diverse finiture. Diffusori in acrilico satinato. Possibilità di scelta della temperatura colore della luce (3.000K o 4.000K) in fase di installazione. [La lampada è dotata di circuiti led di entrambi i colori e la modifica di temperatura colore avviene mediante switch interno al corpo lampada].

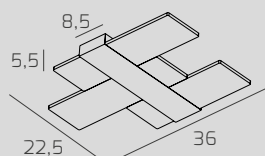

Collection of wall or ceiling lamps with white painted metal structure and magnetic front plate available in different finishes. Satin acrylic diffusers. Possibility of choosing the color temperature of the light (3,000K or 4,000K) during installation. [The lamp is equipped with LED circuits of both colors and the color temperature is changed by means of a switch inside the lamp body].

Collezione di lampade a parete e plafone di forma tonda, realizzate da lastre di metallo sostenute da un tubolare centrale e verniciate in diverse finiture. I prodotti sono utilizzabili singolarmente o possono essere collegati elettricamente fra di loro, utilizzando un unico punto luce, per creare diverse combinazioni di misura e colore. Uno dei punti di forza del prodotto consiste nel non utilizzare dei led integrati ma una lampadina Gx53 che, una volta montata può essere facilmente sostituita dall'esterno. È disponibile una staffa di fissaggio opzionale (ST12) che aumenta la superficie di contatto con il plafone/parete.

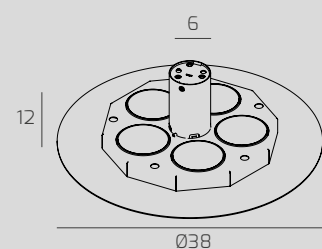

Collection of round-shaped wall and ceiling lamps, made from metal plates supported by a central tubular element and painted in different finishes. The products can be used individually or can be electrically connected to each other, using a single light point, to create different combinations of size and colour. One of the strengths of the product consists in not using integrated LEDs but a Gx53 bulb which, once mounted, can be easily replaced from the outside. An optional fixing bracket (ST12) is available which increases the contact surface with the ceiling/wall.

Collezione di lampade da parete e plafone di forma tonda realizzate con tecnologia laser.

Le strutture in metallo sono progettate per essere componibili ed implementabili a piacimento.

Il prodotto viene fornito completo di deflettore della luce che in qualsiasi momento può essere facilmente montato/rimosso dando la possibilità di avere luce diretta/indiretta all'occorrenza.

I cavi ed i supporti per gli spostamenti disponibili entrambi in varie finiture devono essere acquistati separatamente (vedi pag. seguente)

Collection of round-shaped wall and ceiling lamps made with laser technology.

The metal structures are designed to be modular and implementable at will.

The product is supplied complete with a light deflector which can be easily mounted/removed at any time, giving the possibility of having direct/indirect light if necessary.

The cables and supports for movement both available in various finishes must be purchased separately (see page following)

Hexagon

1142

1142/1L1D-SA

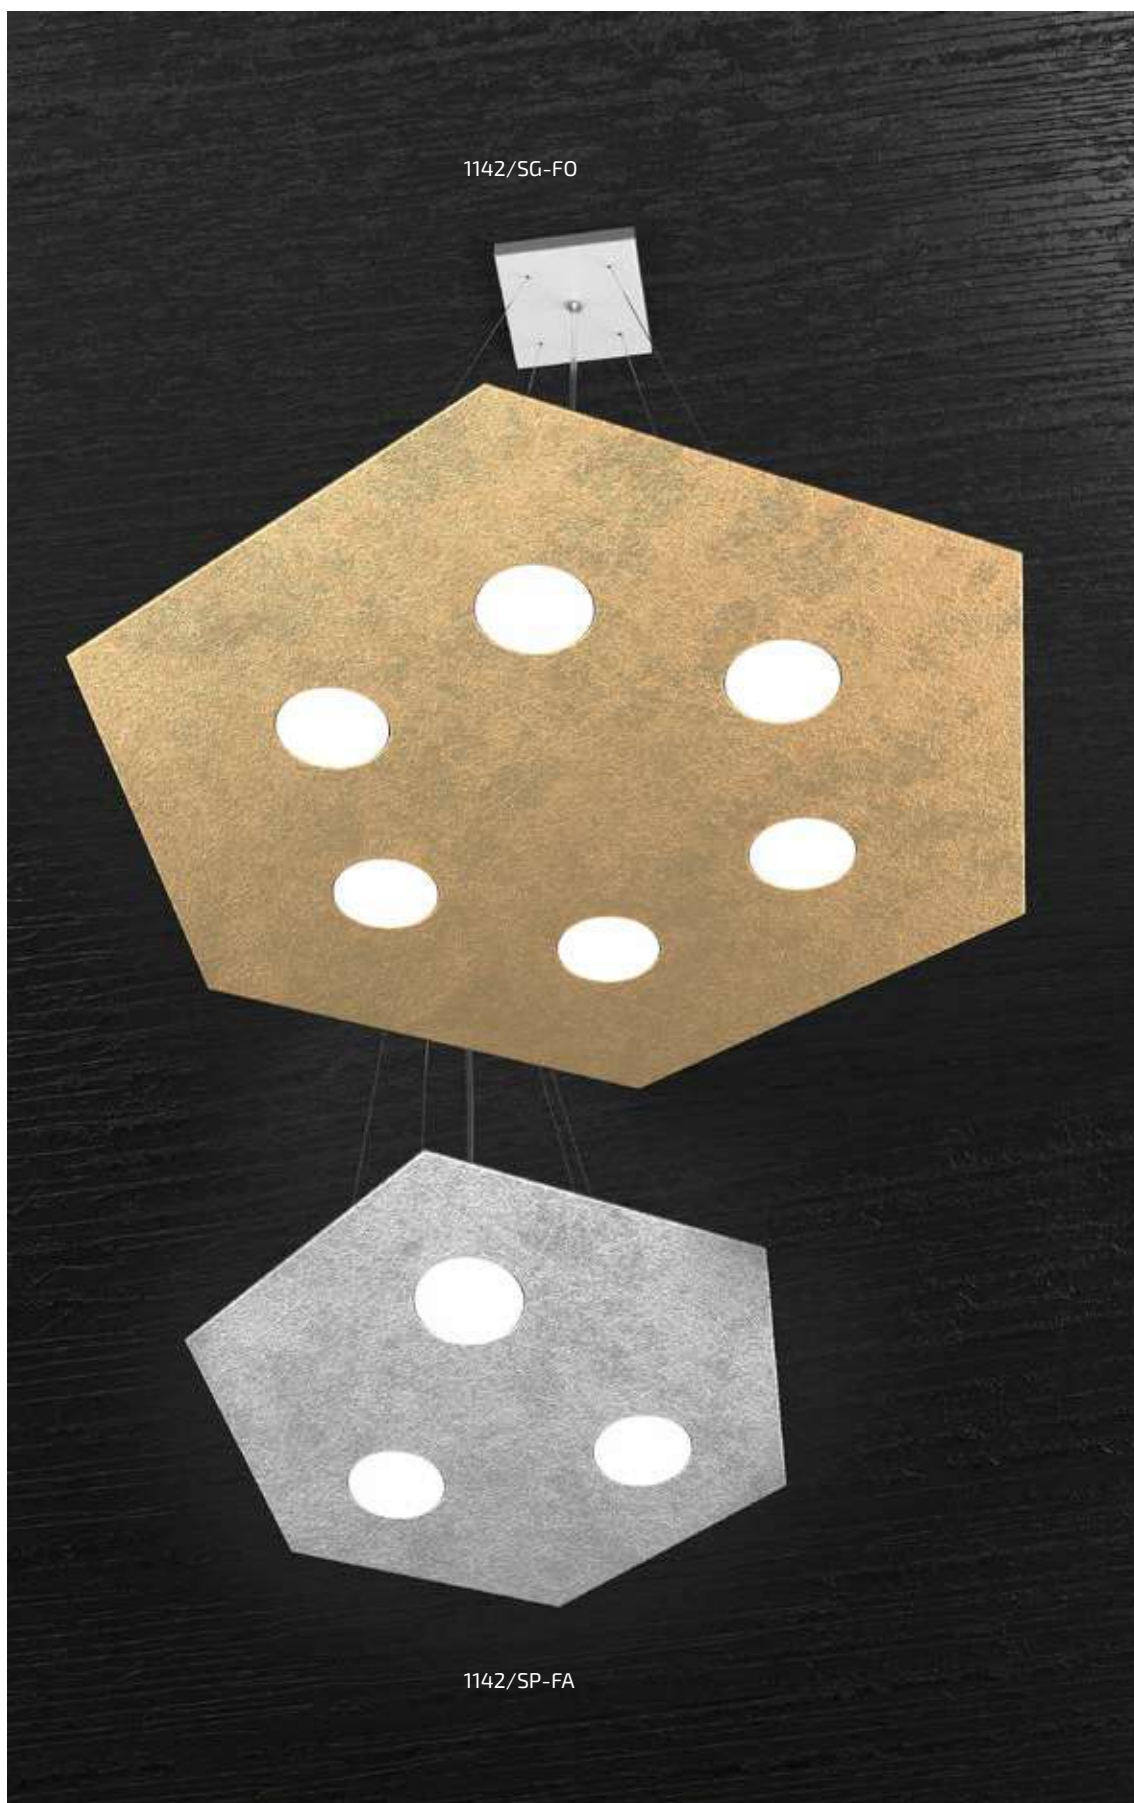

1142/2L-GR

Collezione di lampade esagonali formate da lastre di metallo verniciato in diverse finiture.

I componenti base sono due: uno con sorgente luminosa (1142/1L) e uno solo decorativo (1142/1D).

Questi componenti possono essere assemblati fra loro per creare infinite forme e mix di colori. Per comodità vengono proposti alcuni kit precomposti con codice dedicato.

La presente collezione in quanto componibile è indicata per risolvere problemi di decentramento tra punto luce e zona da illuminare.

Un altro punto di forza del prodotto consiste nel non utilizzare dei led integrati ma una lampadina Gx53 che, una volta montata, arriva a filo della lastra metallica e può essere facilmente sostituita dall'esterno. La collezione viene completata da una plafoniera e una sospensione monoscocca a 3 e 6 luci.

La sospensione può essere sia monoemissione che biemissione.

Collection of hexagonal lamps formed by painted metal plates in different finishes.

There are two basic components: one with light source (1142/1L) and one decorative only (1142/1D).

These components can be assembled together to create infinite shapes and mixes of colours. For convenience, some pre-assembled kits with dedicated codes are proposed. Since this collection is modular, it is indicated for solving problems of decentralization between the light point and the area to be illuminated.

Another strong point of the product consists in not using integrated LEDs but a Gx53 bulb which, once mounted, comes flush with the metal plate and can be easily replaced from the outside. The collection is completed by a ceiling light and a monocoque suspension with 3 and 6 lights.

The suspension can be both single and double emission.

Esempi di composizioni aggiuntive possibili:

I componenti esagonali luminosi (1142/1L) possono essere assemblati fra loro illimitatamente.

Le due regole da rispettare sono:

Examples of possible additional compositions:

The luminous hexagonal components (1142/1L) can be assembled together indefinitely.

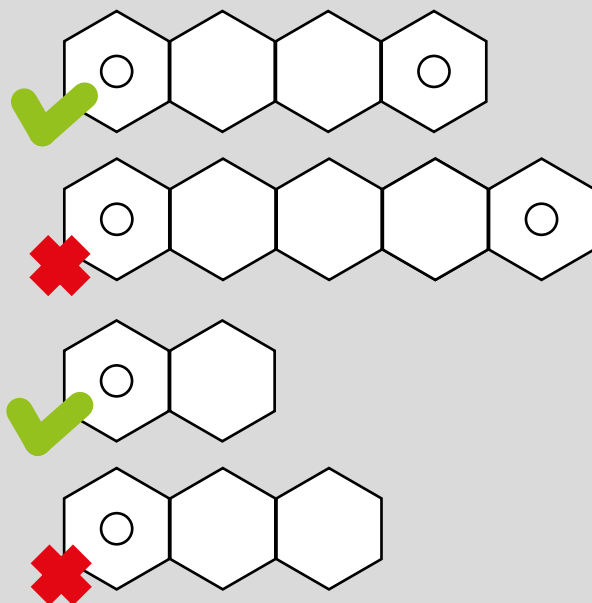

The two rules to respect are:

1. Tra due esagoni luminosi (1142/1L) può esserci solo un intervallo di massimo due componenti decorativi (1142/1D) (vedi esempio)

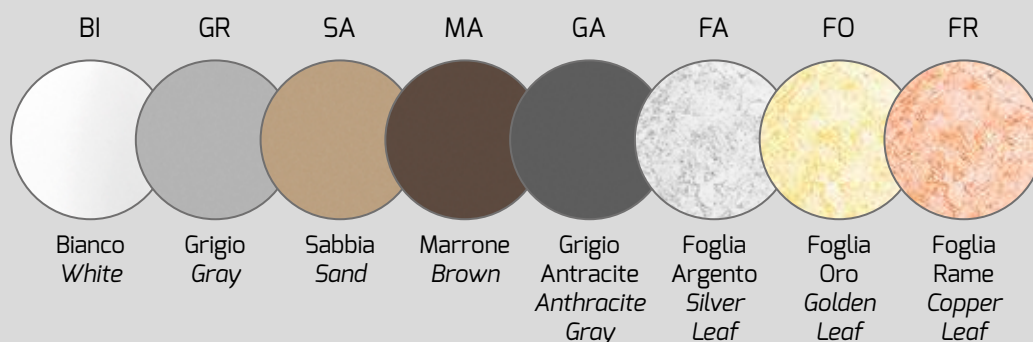

1. Between two luminous hexagons (1142/1L) there can only be a gap of up to two decorative components (1142/1D) (see example)

2. È possibile posizionare al massimo un elemento decorativo a sbalzo:

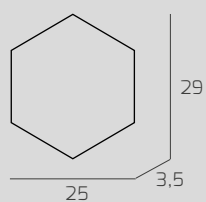

2. A maximum of one cantilevered decorative element can be placed:

Collezione di lampade a plafone e sospensione realizzate con lastre di metallo sulle quali sono state effettuate delle lavorazioni di fresatura che creano giochi di quadrati sovrapposti. Le sospensioni sono disponibili sia nella versione monoemissione che nella versione biemissione.

Il punto di forza del prodotto consiste nel non utilizzare dei led integrati ma una lampadina Gx53 che, una volta montata, arriva a filo della lastra metallica e può essere facilmente sostituita dall'esterno.

La serie viene completata da un'ampia gamma di applique, da una lampada da appoggio e da tre modelli di sospensioni e plafoniere tubolari.

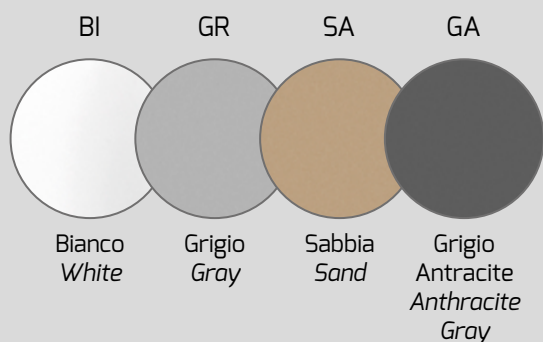

Collection of ceiling and suspension lamps made with metal plates on which milling processes have been carried out that create games of overlapping squares.

The suspensions are available in both the single-emission and double-emission versions.

The strong point of the product consists in not using integrated LEDs but a Gx53 bulb which, once mounted, comes flush with the metal plate and can be easily replaced from the outside.

The series is completed by a wide range of appliques, a table lamp and three models of tubular suspension and ceiling lamps.

Collezione di lampade realizzate con lastre di metallo dalle forme morbide ed irregolari verniciate in diverse finiture.

Il punto di forza del prodotto consiste nel non utilizzare dei led integrati ma una lampadina Gx53 che, una volta montata, arriva a filo della lastra metallica e può essere facilmente sostituita dall'esterno.

La serie viene completata da un'ampia gamma di applique e da tre modelli di sospensioni e plafoniere tubolari.

Le sospensioni aventi i codici S2, S3, S4, S5 danno la possibilità di aggiungere luci disposte sul lato superiore delle piastre per illuminare il soffitto, in modo da uniformare la luminosità (vedi codice dedicato)

Collection of lamps made with metal plates with soft and irregular shapes painted in different finishes.

The strong point of the product consists in not using integrated LEDs but a Gx53 bulb which, once mounted, comes flush with the metal plate and can be easily replaced from the outside.

The series is completed by a wide range of wall lights and three models of tubular suspension and ceiling lights.

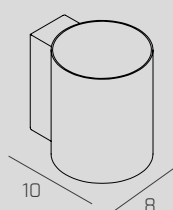

The suspensions with codes S2, S3, S4, S5 give the possibility of adding lights arranged on the upper side of the plates to illuminate the ceiling, in order to uniform the brightness (see dedicated code)

Focus

1199

1199/2 R

1199/3 R

Collezione di lampade realizzate con lastre sagomate di vetro extrachiaro.

Il lato a vista è trasparente e la colorazione retrostante bianca, viene impreziosita da una texture astratta realizzata con serigrafie satinat.

Il diffusore in vetro presenta delle serigrafie satinat di sezione quadrata in corrispondenza delle sorgenti luminose.

Le sospensioni aventi i codici S2 R, S3 R e S4 danno la possibilità di aggiungere luci disposte sul lato superiore delle piastre per illuminare il soffitto, in modo da uniformare la luminosità (vedi codice dedicato)

Collection of lamps made with shaped sheets of extra-clear glass.

The visible side is transparent and the color behind it is white and is embellished with an abstract texture created with satin screen printing.

The glass diffuser has satin silk-screen printing with a square section corresponding to the light sources.

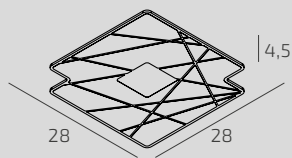

The suspensions with codes S2 R, S3 R and S4 give the possibility of adding lights arranged on the upper side of the plates to illuminate the ceiling, in order to uniform the brightness (see dedicated code)

Rotation

1160

Collezione di lampade a parete e plafone realizzate con cubi di metallo roteanti a 360°, fornendo così la possibilità di orientare la luce in tutte le direzioni semplicemente modificandola all'occorrenza.

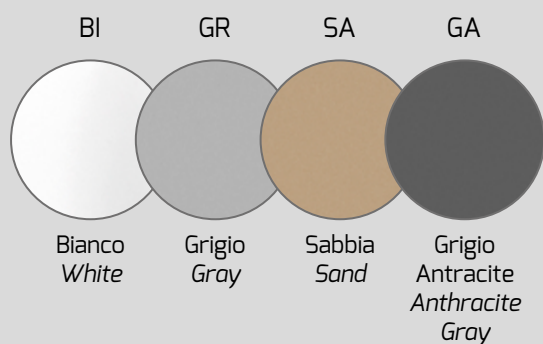

Il punto di forza del prodotto consiste nel non utilizzare dei led integrati ma una lampadina Gx53 che, una volta montata, può essere facilmente sostituita dall'esterno. La serie viene completata da una lampada da appoggio e da una sospensione regolabile in altezza e dotata di dispositivi per la regolazione automatica dei cavi di acciaio.

Collection of wall and ceiling lamps made with 360° rotating metal cubes, thus providing the possibility of orienting the light in all directions by simply modifying it if necessary.

The strong point of the product consists in not using integrated LEDs but a Gx53 bulb which, once mounted, can be easily replaced from the outside.

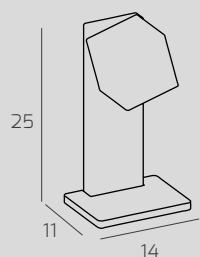

The series is completed by a table lamp and a height-adjustable suspension equipped with devices for automatic adjustment of the steel cables.

NO.1

NO.2

Lampada da parete con struttura in metallo verniciato in diverse finiture.

Il punto di forza del prodotto consiste nel poter essere installato sia singolarmente sia assemblato linearmente per creare una lampada da parete multipla, utilizzando un unico punto di alimentazione.

La versatilità del prodotto permette di creare infinite composizioni di colore.

Un altro punto di forza consiste nell'utilizzo di una lampadina Gx53, facilmente sostituibile.

Wall lamp with painted metal structure in different finishes.

The strong point of the product is that it can be installed both individually and assembled linearly to create a multiple wall lamp, using a single power point.

The versatility of the product allows you to create infinite color compositions.

Another strong point is the use of a Gx53 bulb, which is easily replaceable.

Lampada da terra realizzata con due diffusori metallici rettangolari orientabili sui quali sono posizionati dei diffusori in vetro sabbiato. Il punto di forza del prodotto è l'importante resa luminosa ed il non utilizzo di led integrati ma di lampadine Gx53 che, una volta montate, possono essere facilmente sostituite. Il prodotto viene fornito con interruttore ON/OFF a pedale, che in caso di necessità può essere sostituito mediante connessione rapida con il dimmer opzionale.

Floor lamp made with two adjustable rectangular metal diffusers on which sandblasted glass diffusers are positioned. The strong point of the product is the important light output and the non-use of integrated LEDs but of Gx53 bulbs which, once mounted, can be easily replaced. The product is supplied with an ON/OFF pedal switch, which if necessary can be replaced by quick connection with the optional dimmer.

Piantana composta da uno stelo metallico curvo regolabile in varie posizioni, sezione quadrata e finitura satinata.

È possibile selezionare la forma ed il colore dei basamenti in marmo cilindrico alto o cilindrico basso.

È anche possibile abbinare diversi formati di diffusore: due in tessuto e uno metallico.

La collezione viene completata da una combinazione per il fissaggio a parete mediante una staffa che sostituisce il basamento tradizionale.

Per l'acquisto di parti di ricambio e per ulteriori informazioni potete consultare la pagina 623.

Floor lamp composed of a curved metal stem adjustable in various positions, square section and satin finish.

It is possible to select the shape and color of the high cylindrical or low cylindrical marble bases.

It is also possible to combine different formats of diffuser: two in fabric and one in metal.

The collection is completed by a combination for wall fixing using a bracket that replaces the traditional base.

To purchase spare parts and for further information, consult page 623.

Dimmer

DIMM-SMART

Ricevitore dimmer Wireless Triac
dimensioni:
44x44 h22mm
- Carico massimo supportato LED 3/200W
Funzione memoria ultima posizione.
- Comandabile da uno o più pulsanti
- Controllo luci tramite tablet, smartphone ed assistenti vocali

*Triac wireless dimmer receiver size:
44x44 h22mm
- Maximum supported load LED 3/200W
Last position memory function.
- Controlled by one or more buttons
Light control via tablet, smartphone, and voice assistants*

DIMM-RIC

Ricevitore dimmer Wireless Triac
dimensioni:
52x52 h26mm
- Carico massimo supportato 240W
Funzione memoria ultima posizione.
- Comandabile da pulsante push e/o telecomando

*Triac wireless dimmer receiver size:
52x52 h26mm
- Maximum supported load 240W
Last position memory function.
- Controlled by push button and/or remote control.*

KIT-DIMM

Kit composto da ricevitore dimmer + telecomando

Kit composed of dimmer receiver + remote control

T-DIMM

Dimmer per piantane a Led completo di cavi per la connessione rapida utilizzabile unicamente con lampadine dimmerabili tecnologia Triac

Dimmer for Led floor lamps complete with cables for quick connection usable only with dimmable Triac technology bulbs
